FOREWORD

This Roster is prepared and published under the authority of sections 6 and 8 of Act No. 233 of the General Assembly of 1919.

The men who served in the World War were subjected to such frequent transfers that any grouping of individuals who served in a particular organization was found to be impracticable; therefore this Roster has been prepared by grouping separately the Army, Navy, Marine Corps and Army Nurse Corps, and listing thereunder in alphabetical order the name of each individual soldier who served therein, thus avoiding the necessity of any other index to names.

These records have been prepared, with very few exceptions, from records furnished from the office of the Adjutant General at Washington, where all World War records have been assembled.

Whenever possible, a record of service was secured from the soldier himself, and compared with those received from the War Department, thus doubly verifying the correctness of these records.

The place of residence given in this Roster is that place given by the soldier himself upon entering the service, or the town or city designated by him as his place of residence when applying for the additional State pay.

The real beginning of the Roster was in 1917, and its preparation has required a great amount of careful, painstaking labor by this office during the past ten years. This has, however, been a most pleasant task. These pages will provide future generations with a permanent record that will ever be a reminder of the sacrifices made by each generation to prepare the way for those who come after. Vermont has reason to be very proud of those who have gone from her hills and valleys to serve in her defense since the days of Ethan Allen and Seth Warner.

H. T. J.
